**Supor Renewable Energy Group LLC** - (SREG) was established to provide services to all Green initiatives including but, not limited to the Offshore Wind and Solar Energy industries. SREG is part of the Supor Group of Companies and proudly establishes itself as a Green company for over 15 years now. The Company services the Continental U.S.A. with a focus on the East Coast U.S.A. with a variety of Services including Trucking, Crane and Rigging, Warehousing and Specialized Equipment Transport. SREG partners with Tier I service providers and, its' reputation – for over 60 years – is second to none. SREG offers Crane Rental Services - Heavy Lifting - Engineered Transport - State-of-the-art equipment. SREG is proud to tout that we are Signatory to a number of International Trade Unions in our respective areas of service. Supor capitalizes on its strategic alliances and partnerships with seasoned companies to provide full turnkey services for both small and large projects alike.

### Offshore Projects

The key to offshore projects is efficient port staging operations such as loading and unloading to provide on-time delivery to the offshore site. Our partnerships with harbour operators ensure a one-stop-shop solution for harbour logistics that is both time and cost efficient for our clients.

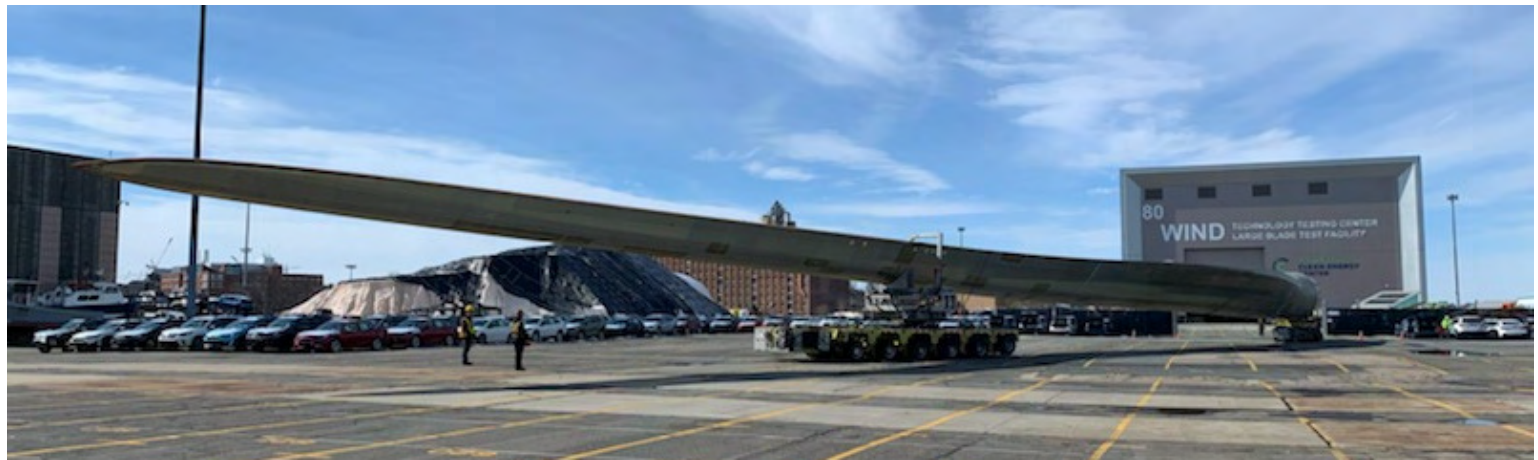

### Local Presence - Global Strength

We provide our clients with unparalleled service by leveraging our local knowledge and experience together with our global audience. We have operated in numerous market sectors across the United States, including in the Midwest region. We have access to one of the world's largest inventories of specialized heavy lifting and transport equipment.
